The Board considers that the main reasons for the remarkable increase in the number of new student registration and average tuition fees of new students of the College and the Vocational College are benefitting from the significant talent demand in commercial disciplines in the Greater Bay Area as well as the recognition of the Huashang brand and management’s capability in school management of the Group. The respective strengths of the College and the Vocational College are as follows:

**(1) Rise in both quality and quantity of the students of Huashang College**

In terms of new students, Huashang College’s number of new student registration is much higher than that of last year, where the number of new students increases from 6,283 in the 2018/2019 school year to 7,468 in the 2019/2020 school year, representing an increase of 18.9%. The College’s minimum admission scores for liberal-and-art majored and science majored students in Guangdong are 31 and 28 points higher than the provincial admission line for university respectively, demonstrating the fact that the quality of its students has improved substantially.

**(2) Huashang Vocational College has benefitted from China’s increasing efforts in developing vocational education policies and the expansion of admission plan**

The number of student admission of Huashang Vocational College this year witnessed a substantial rise, where the number of new student registration increases from 2,965 in the 2018/2019 school year to 4,459 in the 2019/2020 school year, representing an increase of 50.4%, while the minimum score line for liberal-and-arts majored students exceeds the provincial line by 202 points and the minimum score line for science majored students is 112 points higher than the provincial line, demonstrating a significant increase in the admission score line.
